

Hi Steve

From 18 March 2020, the price of Xero Starter, Standard and Premium plans is increasing by \$2 a month in Australia. We want to change the game for small businesses and advisors and that's why we're constantly evolving Xero for you. This web page tells you more about the price change.

Xero's getting even better – with Hubdoc

On 18 March 2020, you'll be able to automate pesky admin tasks and say goodbye to manual data entry. That's because Hubdoc, which has a retail price of \$27.50 a month, will be included in Starter, Standard and Premium plans.

We acquired Hubdoc in 2018 to make Xero even more beautiful. With Hubdoc's world-class data capture technology as part of your day-to-day toolkit, you can:

- **Easily capture bills and receipts** – Hubdoc makes it easy to upload bills and receipts using your desktop, mobile device, email or scanner.
- **Let us do your data entry** – Once documents are uploaded to Hubdoc, the key data is automatically extracted and synced to Xero as accurately coded transactions.
- **Enjoy one-click bank reconciliation** – Xero then matches these transactions to the bank feed for one-click reconciliation.
- **Go paperless** – All your documents are searchable and easy to access from anywhere in the world.

By automating admin tasks, you can spend less time managing documents and more time doing what you love.

This Hubdoc page has more information for you now, and we'll be in contact again before March to let you know how to get started with Hubdoc. You can also read this [blog](#).

Thanks, as always, for using Xero

The Xero team

All pricing is in AUD and includes GST.

P.S. We know you may have chosen not to receive marketing updates from us; however, this operational information relates to your use of Xero and we wanted to make sure you're aware of it.
